19.82.010 Purpose.

The purpose of this chapter is to create the framework for a comprehensive and balanced system of signs that will preserve the right of free speech and expression, provide easy and pleasant communication between people and their environment, and avoid the visual clutter that is potentially harmful to traffic and pedestrian safety, property values, business opportunities, and community appearance. With these purposes in mind, it is the intent of this chapter to authorize the use of signs that are:

- A. Compatible with their surrounding architecture;
- B. Appropriate to the activity that displays them;

B. Zoning map. The city's zoning map shall show the boundaries of all designated Areas of Special Character.

C. Special regulations. The city council shall adopt special regulations

for signs in Areas of Special Character that shall be consistent with the nature of the Area of Special Character.

D. Effect of special regulations. Special regulations for Areas of Special Character shall supersede and may be either more or less restrictive than the regulations for signs contained in title.

E. Sign Plan for Areas of Special Character. The planning commission may approve a sign plan for an Area of Special Character. The sign plan shall contain visual representations of the lettering, illumination, color, area and height of signs and may also indicate the area and buildings where they may be placed and located. The sign plan may also contain special regulations authorizing the display of signs in the Area of Special Character. The special regulations may incorporate by reference the visual representation of signs in the sign plan. The planning commission may approve a sign plan if the signs illustrated in the plan and authorized by any special regulations included in the plan are consistent with the purposes of this title and the character of the Area of Special Character. An approved sign plan shall supersede and may be either more or less restrictive than the regulations contained in this title.

F. Programs for Signs. The planning commission may approve a Program for Signs in an Area of Special Character.

19.82.100 Programs for Signs.

A. Purpose. A Program for Signs is a creative incentive for a unified visual statement that integrates the design of signs with the design of the building on which they will be displayed and with the surrounding area.

B. When allowed. The owners of one or more adjacent premises, or one or more occupants of a shopping center or multi-use building, not located in an Area of Special Character, may submit a Program for Signs to the planning commission that need not comply with some or all of the requirements of this ordinance. The Program for Signs shall contain a visual representation of the lettering, illumination, color, size, height, placement, and location of the signs proposed for display

C. Standards for approval. The planning commission may approve a Program for Signs if the signs visually represented in the program are:

1. Consistent with the purposes of this chapter; and

2. Compatible with the theme, visual quality, and overall character of the surrounding area or an Area of Special Character, if the signs included in the Program for Signs are located in such an area; and;

3. Appropriately related in size, shape, materials, lettering, color, illumination, and character to the function and architectural character of the building or premises on which they will be displayed, and are compatible with existing adjacent activities.

D. Display of signs. A premises or occupancy for which a Program for Signs has been approved by the planning commission may only display signs that comply with the approved program, which shall supersede and replace the regulations for signs in this ordinance.

19.82.110 Prohibited signs.

A. Signs which by color, location, or design resemble or conflict with traffic control signs or signals;

B. Signs attached to light poles or standards;

C. Portable signs;

D. Above-roof signs;

E. Inflatable signs;

F. Any unlicensed temporary sign;

G. Vehicle signs;

H. Any sign (whether a monument sign, wall sign, projecting sign, or any other type of sign) which flashes, blinks, uses chaser lights or has animation, movement, changeable copy or other moveable images or lettering (via LED lighting or any other technology); provided, however, that the following signs may be permitted as conditional uses subject to compliance with the other requirements of this chapter:

1. Time and temperature signs;

2. Public information signs; and

3. OPEDS converted from existing, nonconforming off-premises signs in the OPEDS zone, as provided in section 19.82.123, below; or

C. Real estate signs, one per property. The real estate sign shall not exceed six feet in height and nine square feet.

D. Property signs.

E. Name plate signs.

F. Civic signs.

19.82.121 Transit facility advertising.

Advertising on public transit (bus) benches and shelters in the city is prohibited; provided, however, that nothing in this code shall prohibit the city from maintaining public, or public-interest, notices on any city-owned public transit facilities in the city.

19.82.123 Off-premise electronic display sign overlay zone.

A. Establishment. The OPEDS overlay zone is established to provide areas of the city in which existing, nonconforming off-premise signs which are located in such zone as of 20 November 2012 may be converted into OPEDS as a conditional use.

1. Billboards and other off-premise signs may not be converted into electronic display signs in any location outside the OPEDS zone.

2. Except as otherwise provided in this section for the conversion of existing, nonconforming off-premises signs to off-premise electronic display

signs in the OPEDS zone, all OPEDS are prohibited.

3. The location of the OPEDS zone is shown on Map 19.82.123.

B. Purposes. Purposes of this section include, without limitation:

1. Allowing for appropriate off-premise electronic signage which uses clear, attractive graphics to highlight goods and services;

2. Protecting the street views and vistas of pedestrians and motorists;

3. Protecting and shielding pedestrians and motorists from distractions of excessive motion, illumination and other safety hazards;

4. Protecting residents from glare and excessive illumination;

5. Providing clear standards for the design, installation and use of off-premise electronic display signs in the OPEDS zone; and

6. Otherwise promoting and protecting the public health, safety, welfare and convenience by regulating the off-premise electronic display signs enabled by this section.

C. Conditional use permit required. The owner of any off-premise sign shall be required to obtain a conditional use permit pursuant to chapter 19.84 of this title before converting that off-premise sign to an OPEDS.

D. Standards. Subject to any contrary provisions of applicable state or federal law, all OPEDS shall meet the following standards:

1. No OPEDS may be larger in width, height or display/signable area than the off-premise sign from which it was converted.

2. The text, images and graphics on an OPEDS shall be static and complete within themselves, without continuation in content to the next image or message or to any other sign.

Serial messages that require multiple passes or multiple signs to comprehend the message are prohibited.

3. All text and images must be of a size and shape to not cause drivers to reduce speed or become unreasonably distracted in order to comprehend the message. The city's focus under this subsection D(3) shall be the method (in terms of letter size and other quantifiable physical attributes) used to convey a message on an OPEDS rather than the content of such message.

4. Each electronic display area capable of showing a separate electronic message shall be considered to be a separate OPEDS, including those sharing the same support structure.

5. OPEDS shall not include animation, full motion video, flashing, scrolling, strobing, racing, blinking, changes in color, fade in or fade out or any other imitation of movement or motion, or any other means not providing constant illumination.

6. The dwell time for each message on an OPEDS shall be at least eight seconds, such that each message shall be illuminated and static for at least eight seconds before transitioning to a new static display.

7. The transition from one static display to another must be effectively instantaneous, with a twirl time not exceeding .25 second.

8. Every OPEDS shall be equipped with a mechanism that automatically controls the sign's display period at all times as provided in this section.

9. OPEDS shall comply with the following illuminance requirements:

(a) No OPEDS shall cause illuminance in excess of three-tenths (0.3) foot candle above ambient light as

measured perpendicular to the OPEDS's electronic sign face at a distance in feet calculated by taking the square root of the product of the following:

(i) the area of the OPEDS's electronic sign face measured in square feet; and

(ii) 100.

For example, if the OPEDS's electronic sign face measures 14' x 48', then the illuminance caused by such use could not exceed three-tenths (0.3) foot candle above ambient light at a perpendicular distance of 259 feet from the OPEDS's sign face.

(b) Every OPEDS shall be equipped with an automatic dimmer control or other mechanism that automatically controls the sign's illuminance as provided above in direct correlation with natural ambient light conditions at all times.

10.

(a) An otherwise compliant OPEDS may not be illuminated, lit or operated between 11:00 p.m. and 6:00 a.m. if it is located within 600 feet of any property zoned or occupied for a residential use unless the owner or operator of the OPEDS establishes, in the conditional use approval process, that at least one of the following conditions will exist:

(i) The illumination caused by the OPEDS does not exceed one-tenth (0.1) foot candle onto any property zoned or occupied for a residential use; or

(ii) The illumination caused by the OPEDS does not exceed the illumination caused by the predecessor (non-OPEDS) sign as of 23 May 2012, and that the text, image and graphics of the OPEDS will remain static between 11:00 p.m. and 6:00 a.m.

(b) The conditions in subsections (a)(i) and (a)(ii), above, are not applicable to the extent that the message is an emergency public safety warning or alert, such as an "Amber Alert."

(c) Continuous compliance with the illumination limits of subpart (10)(a), above, shall be a condition of approval of any OPEDS located within 600 feet of any property zoned or occupied for a residential use.

11. OPEDS may not be located closer than 800 linear feet from any other OPEDS; subject to the following clarifications applicable to off-premise signs with two or more sign faces sharing the same support structure:

(a) Both sign faces of the same "double-sided" off-premise sign (i.e.—off-premise sign faces mounted on opposite sides of the same support structure, so that both sign faces are effectively not visible at the same time from any vantage point, as reasonably determined by the city) may be converted to OPEDS;

(b) Only one sign face of the same "layered" off-premise sign(s) (i.e.—two or more off-premise signs mounted in vertical tiers on the same support structure, so that such sign faces are effectively visible at the same time from any vantage point, as reasonably determined by the city) may be converted to an OPEDS; and

12. The following certifications are additional conditions of approval or continuation of any OPEDS:

(b) Based on complaints received, or for other reasonable cause, the city may from time to time require the owner or operator of an OPEDS to provide, within ten calendar days after receipt of the city's written request, an updated written certification that the sign has been re-tested and has been repaired or modified, as necessary, to comply with the requirements of this section.

(c) The city also may, at its option, from time to time verify an OPEDS's compliance with the requirements of this section, including by selecting and engaging qualified experts to measure the sign's illuminance. If the city reasonably determines that an OPEDS is not in compliance with such requirements, then the owner or operator of the sign shall correct the noncompliance within ten calendar days after written notice from the city, and shall reimburse all of the city's costs reasonably incurred in connection with such determination.
